OSHKOSH, WIS.

John Hicks, Printer, Oshkosh, Wis.

OSHKOSH, WIS., }
CHICAGO, ILL., } March 15, 1888.

To Our Patrons:

Herewith you will find our 1888 List containing price-lists of Sash, Doors, Blinds, Frames, Stairwork, Fancy Glass, Brackets and Cottage Front Doors.

We desire to call your attention to our popular line of Cottage Front Doors, a few styles of which are shown on pages 42 to 50. We make these doors with a $12\frac{1}{2}$ inch Lock Rail.

We make all styles of Sash, Doors and Blinds used in any market of the country, as well as numerous specialties, such as Ventilators, Mantels, Pew Ends, Veneered Doors, Store Fronts, Stairwork, Brackets, Church Sash, Queen Anne Sash, etc., etc.

The quality of our goods is well known to the trade, and we guarantee to keep them up to their usual high grade.

We carry in our Chicago warehouses a very complete stock, which was manufactured by ourselves at our factory in Oshkosh.

We invite a personal inspection of our stock and hope to be favored with your orders.

Estimates, Price Lists and Moulding Books furnished upon application.

Very Truly,

CARLTON FOSTER & CO.

GRADES OF Sash, Doors and Blinds,

ADOPTED BY THE
Wholesale Sash, Door and Blind Manufac-
turers' Association of the Northwest,
November 16th, 1887.

DOORS.

No. 1 Doors—Workmanship on No. 1 doors must be good. Stiles, rails and panels must be clear, except that white sap and water stain caused by cross piling lumber, is admitted, and small pin knots not exceeding one-fourth ($\frac{1}{4}$) inch in diameter may be allowed. The Standard No. 1 door shall be pinned and the wedges glued.

No. 2 Doors—No. 2 doors may contain knots not larger than one (1) inch in diameter, and may contain blue sap on two (2) sides, and may contain gum spots showing on one (1) side. Other small defects may be allowed, but the total number of defects, (not including blue sap) shall not exceed ten (10) in number on each side, and blue sap must not exceed fifty (50) per cent. of any piece of the door. Workmanship must be good, though slight defects therein may be allowed where the quality averages fair. Shaky lumber shall not be admitted. No part of a No. 2 door, except the top rail, short muntins and short panels shall be free from some defect.

No. 3 Doors—No. 3 doors may contain double the amount of defects that are allowed in No. 2, and the knots and other defects may be coarser. Worm eaten lumber may be admitted if showing on one side only. Workmanship may be defective, but not enough so to destroy the strength of the door.

WINDOWS.

Check Rail Windows may contain not to exceed two (2) knots in each piece of the sash, said knots not to exceed three-eighths ($\frac{3}{8}$) inch in diameter. White sap and a small amount of blue sap may be admitted. Workmanship must be good.

Plain Rail Sash may contain blue sap and (small) knots. Shaky lumber not admissible.

BLINDS.

Outside Blinds must be made of clear lumber, except that small pin knots in the stiles and rails, and white sap may be admitted. Shaky lumber is not admitted. Workmanship must be good.

*Fig. A.*

For Window Frames, Circle inside and outside.

*Fig. B.*

For Window Frames, Circle outside, Square inside.

*Fig. C.*

For Window Frames, Segment inside and outside.

*Fig. D.*

For Window Frames, Segment outside, Square inside.

Always give the *radius* of the *segment*, otherwise we shall make our regular radius, which is the width of the window.

Windows made in the above forms can be filled with any number of lights required.

**PLEASE OBSERVE THE FOLLOWING DIRECTIONS
IN GIVING YOUR ORDERS.**

DOORS—

Give size, quality (1st or 2nd), thickness and number of panels

MOULDED DOORS—

State whether to be moulded one or two sides, and raised or flush moulding.

SASH—

Give size of glass, number of lights in window, number of lights in width, thickness, plain or check rail, and whether glazed or unglazed.

SEGMENT HEAD SASH—

If frames are made, give radius to inside edge or face casing of window frame, or rise of casing.

ELLIPTIC HEAD SASH—

If frames are made, send a pattern of head casing.

Elliptic, Segment and Circle Sash—

Be sure to state whether the windows are finished square inside or the same shape inside as outside.

OUTSIDE BLINDS—

You are requested to describe the window for which they are intended, following directions given in ordering Sash, and if frames are made, give exact size of opening.

FRAMES—

Give width of jambs for frame buildings and thickness of wall for brick buildings. For door frames state if out or inside frame. For window frames state if plain or check rail, with or without pulleys.

INSIDE BLINDS—

In all cases the order should give the exact size of opening; size and number of lights in window; distance from top of window to center of meeting rail of sash, or to where the blinds are to be cut; number of folds, and whether to be all slats or outside folds paneled; if blinds fold in pockets give width of outside fold.

Do not take it for granted that we know what you want unless you are explicit.

It is economy to conform to regular sizes and styles as much as possible.

When ordering style of work different from what is embraced in list, it is often necessary to give sections, sometimes elevations.

Use terms when practicable, as given in this book.

In giving sizes of Sash, Doors or Blinds, name width first.

A Window indicates two pieces.

A Sash indicates one piece.

A Blind indicates one piece.

A pair of Blinds indicates two pieces.

A set of Sash or Blinds indicates more than two pieces and order should be accompanied with elevation.

[Entered according to Act of Congress, in the year 1887, by John Hicks, in the office of the Librarian of Congress, at Washington.]

HICKS' TELEGRAPH CIPHER

FOR THE

DOOR, SASH AND BLIND TRADE.

The object of this cipher is to enable parties to condense a long telegraph message into a short one by using certain simple words to represent long descriptive terms or long names referring to sizes and styles of manufactured goods. Regular words are used and variations are produced in a regular manner by the use of legitimate endings and prefixes, so as to avoid confusion. Proper nouns are not used except in a legitimate manner when they represent proper nouns, such as the names of railroads.

HOW TO TRANSLATE A CIPHER MESSAGE.

The following alphabetical key will enable everyone to readily translate a message written in cipher by referring to the page indicated. To ensure safety, it is better to look up each word and write out its meaning, so that when translated it lies before you written out in full. Be careful to get each word as it is given:

- A—{ Figures.
Plain Rail Sash, Twelve Light.
- B—{ Railroads.
Plain Rail Sash, Eight Light.
- C—{ Phrases.
Check Rail Sash, Twelve Light.
- D—{ De-Prefix.
Check Rail Sash, Eight Light.
- F—Check Rail Sash, Four Light.
- F—Check Rail Sash, Four Light, Continued.
- C—Check Rail Sash, Two Light.
- H—Check Rail Sash, Two Light, Continued.
- I—Check Rail Sash, Two Light, Continued.
- J—Transom Sash.
- K—Transom Sash for Double Doors.
- L—Pantry Check Rail, Hot Bed and Barn Sash.
- M—Cellar Sash.
- N—O. G. Four Panel Doors.
- O—O. G. Four Panel Doors.
- P—O. G. Sash Doors, Sash Doors, Screen and Chamfered Doors.
P G Five Panel Doors.
- Q—O G Five Panel Doors.
- R—{ Four Panel Moulded Doors.
Re-Prefix.
- S—Double Front Doors, Store Doors, Outside Blinds.
- U—Un-Prefix.

HOW TO WRITE A CIPHER MESSAGE.

Write out the message in ordinary language just as you want it. Then translate into cipher by using whatever is necessary on the pages headed "Phrases," "Railroads" and "Figures," and refer to the different sizes and qualities of goods as they appear in their proper place in the Price List.

EXAMPLE.

PLATTE VALLEY, NEB., March 1, 1888.

Carlton Foster & Co, Chicago, Illinois:

Send us immediately by Union Pacific Railroad, seventy-five Twelve Light Windows, Plain Rail Sash, 8 x 12, one and one-eighth thick, glazed single strength, forty-five Four Panel Moulded Doors, two eight, six eight, one and three-eighths thick, raised moulding on two sides. Fill ends of car with shingles. Have written you in full by this mail. Answer immediately by mail.

JOHN SAWLOG.

65 words.

By using the cipher this message of 65 words can be condensed into a message of 8 words, as follows:

PLATTE VALLEY, NEB., March 1, 1888.

Carlton Foster & Co., Chicago, Illinois:

Bingham ash abashed, ache repress capstan canvas candidate.

8 words.

JOHN SAWLOG.

EXAMPLE.

CHICAGO, ILL., Jan. 25, 1888.

Messrs. Mortise & Tenon, Boulder, Col.:

Camphene canal candy candle calling canvas.

6 paid.

CARLTON FOSTER & CO.

Translated the above message reads as follows:

CHICAGO, ILL., Jan. 25, 1888.

Messrs. Mortise & Tenon, Boulder, Col.:

It is impossible to fill your order, as we are entirely out, and it cannot be purchased here. Prices are going up, and we are not taking orders except for immediate delivery. We have not heard from you in response to our proposition, and would like a reply. Answer immediately by telegraph. Prices we give hold good for ten days only. Have written you in full by this mail.

COTTAGE FRONT DOORS.

GARFIELD MARGINAL.

ILLINOIS MARGINAL.

Net prices of the above doors furnished upon application.

We now make these doors with any style of marginal light and if other than what is shown above is desired, indicate by sketch.

N. B.—We make these doors with a 12½ inch lock rail.

COTTAGE FRONT DOORS.

OSHKOSH MARGINAL.

GRANT MARGINAL.

Net prices of the above doors furnished upon application.

We make these doors with any style of marginal light, and if other than what is shown above is desired, indicate by sketch.

N. B.—We now make these doors with a 12½ inch Lock Rail.

COTTAGE FRONT DOORS.

OSHKOSH PANEL.

GARFIELD PANEL.

Net prices of the above doors furnished upon application.

We make these doors with or without carving on panel, as desired.

We also make other styles of the Cottage Doors, with panels, if desired.

N. B.—We now make these doors with a 12½ inch Lock Rail.

COTTAGE FRONT DOORS.**OSHKOSH FRONT AND VESTIBULE DOORS.**

Net prices of the above doors furnished upon application.

We make these doors in pairs, filling an opening of 40 x 70 to 50 x 86

Panels of the Front Doors may be either plain or carved, as desired.

N. B. —We make these doors with a 12½ inch lock rail.

COTTAGE FRONT DOORS.

CLEVELAND.

QUEEN ANNE.

Net prices of the above doors furnished upon application.

We glaze the sash doors of the Cottage Front Door series with either plain or fancy glass. The marginal lights are glazed with cathedral glass if so desired.

For glass suitable for these doors see pages 94-99 inclusive.

COTTAGE FRONT DOORS.

NASHVILLE.

GARFIELD-2-LIGHT.

Net prices of the above doors furnished upon application.
We make the Nashville Door without marginal lights, if so desired.

10 Panel O G Door.

5 Panel O G Door.

We are making a specialty of furnishing doors, ordinary sizes, with 5, 6, 7, 9 and 10 panels. The 6 panel door is made 3 panels wide and 2 panels high, as well as 2 panels wide and three high, the top panels being square like those of the 10 panel door. The 7 panel door is like the 10 panel with the three square top panels left off. The 9 panel door has 3 panels wide and 3 panels high. Please designate clearly in ordering just what is wanted. These doors can be made with P G sticking as well as O G.

INSIDE BLINDS.**Fig. 1—All Slats.****Fig. 2— $\frac{1}{2}$ Panels, $\frac{1}{2}$ Slats.**

O G Panel or Rolling Slats, measuring height of window, ordinary width, per foot:

Two-fold.....	\$.70	Four-fold.....	\$1.10
Three-fold.....	.90	Six-fold.....	1.50

The above prices are for pine. If hard wood, such as Cherry, Ash, Maple or Black Walnut, we charge about double the price of Pine. We make Inside Blinds that are not excelled, either in workmanship or style, in this market.

DIRECTIONS FOR ORDERING.

First—In all cases give the exact outside measure of Blinds wanted.

Second—Give the number of folds.

Third—State if Blinds are to be all slats, or $\frac{1}{2}$ panels and $\frac{1}{2}$ slats.

Fourth—State distance from top of window to center of meeting rail or sash, or where Blinds are to be cut.

Fifth—Give thickness of Blinds. They are made $1\frac{1}{2}$ -inch thick unless otherwise ordered.

Sixth—If Blinds fold in pockets, give the size of pockets.

Seventh—State if Blinds are to be painted or finished in oil.

STAIRS,

STAIR RAILING, BALUSTERS,

NEWEL POSTS, ETC.

STAIR RAILING

Of every description, made ready to put up, with crooks, etc. worked and finished in the best manner, of Pine, Butternut Ash, Oak, Black Walnut, Cherry or Mahogany.

We keep constantly on hand, or make to order, all kinds of Newel Posts and Balusters.

PRICES LOW. ESTIMATES OR INFORMATION GIVEN
ON APPLICATION.

ORDERS FOR STAIRS

Should give the height of story from floor to floor, width of joist in second story, width and run of stairs and size of cylinder, with sketch, showing something of the shape wanted, and the way they turn on the landing; also style and width of base used in hall.

ORDERS FOR RAILING

Worked for straight flight, should give the rise and tread of steps as sawed out on the string board, the number of risers, the size of cylinder, which way it turns on landing, and length of straight rail required at head of stairs.

FOR WINDING STAIRS

We should have an exact plan, showing location of risers in cylinder, the width of steps, risers, etc.
